2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.

see separate sheet

Reference is made to the following documents: **D1: WO-A-9216128.**

Re Item V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

D1 discloses a tubular mattress corner piece (28) which is attached to the springs at the corner of a mattress.

The corner piece (1) of claim 1 differs from that in **D1** in that it has: (i) a slit (2) therein, and: (ii) notches (3) which are open towards the ends of the corner piece.

The corner piece (1) is thereby coupled to the springs in the corner of the mattress.

None of the remaining prior art documents discloses these differentiating features. Claim 1 therefore satisfies the requirements of Article 33 (2 & 3) PCT.

Independant method claim 3, which has all of the special technical features of claim 1, also satisfies Articles 33 (2 & 3) PCT.

NB. please note that dependant claim 2 relates to an "apparatus" and not a "method" as stated in the claim.
